

Lakeview Montessori Summer 2022

Prehistoric Times

Session 1

June 20-July 1

Session 2

July 5-July 15
Closed July 4

Session 3

July 18-July 29

Session 4

Aug 1-Aug 12

Session 5

Aug 15-Aug 26

Please join us for an enlightening and exciting introduction to prehistoric times! Through craft projects the children will experience how scientists study nature to understand how the earth developed before people lived here. As we learn about the concept of Eras and Periods of time, our own archeological dig will reveal "artifacts" that teach us about today's world. A true gardening experience will teach the life cycle of plants and how early man depended on them for survival. Our own "cave" will be decorated with original pictographs by the children as our summer program progresses through the timeline of the earth.

How the Earth was Formed

This session we will introduce the concept of the earth, as a planet in our solar system, being formed 4.6 billion years ago. The children will learn about the layers of the earth where archaeologists find ancient evidence of prehistoric life, how volcanoes are formed and what causes eruptions. As a group, we will construct and erupt our own volcano! We will discuss and demonstrate the origins of the oceans and examine the elements that make up our world.

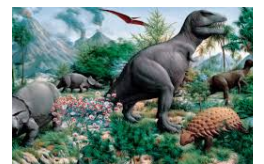

The Explosion of Life!

The children will follow a timeline of life and learn how the oceans played a critical role. We will introduce the jellyfish, sponge, sea star, and several other examples of prehistoric creatures that still live in our world today. As mammals evolved, the earth continued to change. We will learn about Pangaea and craft our own tectonic plates, along with learning about the formation of continents and mountain ranges.

The Age of the Dinosaurs

This exciting session will introduce the children to a variety of dinosaurs, both herbivores and carnivores. We will demonstrate how different our world was so long ago, before people lived here. Our young archeologists will dig for and view fossils and learn how modern scientists discover new information about prehistoric times. We will build dinosaur models and discuss the concept of extinction.

Life During the Ice Age and the Stone Age

The children will be introduced to the woolly mammoth, woolly rhinoceros and the saber-toothed cat, all of which are precursors to the animals that we know today. As we compare and contrast them to today's animals, we will discover how these animals adjusted to the natural elements of their time and what contributions the Ice Age made to our world as we enjoy it today. By making our own primitive artifacts, clothing and tools, we will demonstrate how early man provided for their families during the Stone Age.

Civilization

People lived on the earth long ago without the amenities we all enjoy. How did they live, eat, communicate and form communities? The children will experience the concepts of developing language, writing and the importance of creating art for communication. Scientists have discovered caves with pictographs telling us stories of long ago. Together we will build a cave and create our own cave art. Discussions will focus on how early people cared for their families compared to our own methods today.

Lakeview Montessori Summer 2022

Prehistoric Times

Please review the following schedule, complete and return the enrollment form. **Spaces are limited and will be available on a first come, first served basis.** Summer sessions are usually in demand. In order for us to plan appropriate staffing and buy needed supplies, tuition for each session must be **paid in full** when you register and is **non-transferable** and **non-refundable**. If your child is a full-care student, and will attend **all** summer sessions, you may pay tuition on a monthly basis. **If you elect to pay monthly, this is a contractual agreement to pay the monthly tuition for the entire summer whether your child attends or not.** **We will be open August 29 for daycare ONLY for children that have been enrolled for the extended care schedule (8:00-6:00) for all 5 sessions.**

TUITION FOR EACH 2 WEEK SUMMER SESSION:	9:00-3:00	8:00-6:00	9:00-11:30 or 12:30-3:00
2 days per week (T/Th)	\$422.50	\$562.50	x
3 days per week (M/W/F)	\$637.50	\$782.50	x
5 days per week (M-F)	\$842.50	\$987.50	\$487.50

Check the boxes for which you are registering:

Session 1: How the Earth was Formed

- T/Th 9:00-3:00 M/W/F 9:00-3:00
 T/Th 8:00-6:00 M/W/F 8:00-6:00

June 20-July 1

- M-F 9:00-11:30
 M-F 12:30-3:00
 M-F 9:00-3:00
 M-F 8:00-6:00

Session 2: The Explosion of Life!

- T/Th 9:00-3:00 M/W/F 9:00-3:00
 T/Th 8:00-6:00 M/W/F 8:00-6:00

July 5- July 15 (Closed July 4)

- M-F 9:00-11:30
 M-F 12:30-3:00
 M-F 9:00-3:00
 M-F 8:00-6:00

Session 3: The Age of the Dinosaurs

- T/Th 9:00-3:00 M/W/F 9:00-3:00
 T/Th 8:00-6:00 M/W/F 8:00-6:00

July 18 – July 29

- M-F 9:00-11:30
 M-F 12:30-3:00
 M-F 9:00-3:00
 M-F 8:00-6:00

Session 4: Life During the Ice Age and Stone Age

- T/Th 9:00-3:00 M/W/F 9:00-3:00
 T/Th 8:00-6:00 M/W/F 8:00-6:00

Aug 1 – Aug 12

- M-F 9:00-11:30
 M-F 12:30-3:00
 M-F 9:00-3:00
 M-F 8:00-6:00

Session 5: Civilization

- T/Th 9:00-3:00 M/W/F 9:00-3:00
 T/Th 8:00-6:00 M/W/F 8:00-6:00

Aug 15 – Aug 26

- M-F 9:00-11:30
 M-F 12:30-3:00
 M-F 9:00-3:00
 M-F 8:00-6:00
