

Lakeview Montessori Summer 2023

Wild African Adventure

Join us on an African safari right here at Lakeview Montessori School! Our exploration will take us to some regions of the diverse continent where we will uncover many mysteries of the amazing and majestic animals of the African grasslands and jungle. The children will experience an introduction to this unique culture through music, dance, literature, and art. Genuine African artifacts will offer a point of interest to children and parents alike!

Session 1

June 20-June 30

The Big Cats

Feline friends of the wild will be the emphasis of this session. We will learn about the lazy lion, the exotic leopard, and the charming cheetah. Children will compare and contrast some of these felines' physical attributes, explore their natural habitat, and learn how their social skills help them raise their own families in the wild. We will also discover how closely related these big cats are to our own domesticated pets!

Session 2

July 3-July 14
Closed July 4

Along the Enchanting River Nile

We will explore the natural habitat of the crocodile, rhinoceros, and hippopotamus. The children will start to identify interesting characteristics of these unique animals. We will learn why the Nile was such an important part of everyday Egyptian life. Children will learn fun facts about this ancient region as we cruise down the lush and rugged River Nile.

Session 3

July 17-July 28

Gallant Grassland Grazers

Giraffes and zebras coexist in the African Savannah. The children will discover how these extraordinary animals' characteristics help them survive in the wild. We will identify some similarities and many differences from our own lives as we admire the beauty and elegance these animals bring to the region.

Session 4

July 31-Aug. 11

Walk with an Elephant Family

We will explore the fascinating qualities of this very social and magnificent animal. As the largest living land animal, elephants have several unique physical characteristics for adaptation to their wild and unpredictable environment. We will become stewards of the endangered African elephant as we learn about protection of their natural habitat.

Session 5

Aug. 14-Aug. 25

Primates at Home

Come climb through the forest with us! We will spy on a monkey, chimpanzee, baboon, and gorilla. Children will notice some interesting and familiar behavior, much like the way we like to play! Our adventure will teach us the wonder of their forest life as these intelligent animals reveal how they care for each other.
